

CATALOGUE 2026

FREESTANDING GRILLS

A Napoleon for every garden, every budget — or be a PRO

FIFTY YEARS OF NAPOLEON. NOW IN THE MIDDLE EAST.

Napoleon is one of the largest grill manufacturers in the world and the largest privately owned one in North America. It began in 1976 as a two-person workshop in Barrie, Ontario, and is run today by the founders' sons, with more than 1,600 people and its own manufacturing.

It has spent those five decades inventing rather than following: the infrared SIZZLE ZONE, JETFIRE battery-free ignition, the WAVE cooking grid, backlit SafetyGlow controls. Napoleon holds patents on technologies its competitors do not have, and its grills carry warranties most of the industry will not write.

A Canadian brand, engineered in Barrie and manufactured in Napoleon's own facilities — not contracted out. The same drawings, the same tolerances and the same quality control wherever a product is built.

Now available across the GCC, with regional stock and local support from Arabia Grills.

Wolf Steel Ltd.
Barrie, Ontario, Canada
Family owned since 1976

Our own outdoor kitchen design team

Architects and designers in house, working only on outdoor kitchens and bringing each one to life in 3D before anything is manufactured. Grill heads, burners, refrigeration, cabinetry, sinks and waste are drawn as one integrated kitchen rather than a collection of appliances.

The biggest stock in the GCC

Because we are the distributor, every grill in this catalogue and its spare parts are held here, not ordered when you ask for them. It is the largest stock of this range in the region: delivery in days, and a warranty claim answered the same week. In the UAE, every appliance is delivered and assembled free of charge — it is included in the prices in this catalogue.

Who we are

Arabia Grills is used in three countries: the United Arab Emirates, Saudi Arabia and Oman. It is a brand of Blue Water General Trading FZ-LLC, the Napoleon distributor for the GCC and Egypt.

After-sales that holds. We carry genuine Napoleon spare parts in stock, so service and warranty repairs are done from our own shelves rather than waiting on a shipment.

Where to buy

There are dealers in every country of the territory and in the major cities, who sell, install and look after the kitchens they supply. If you are building a kitchen, contact us and we will put you in touch with your nearest dealer.

Partner with us. Landscape companies, contractors, developers and kitchen suppliers: we are always looking for professionals to represent Napoleon and grow the brand across the GCC and Egypt. Dealer terms, training, stock and after-sales support come with it.

A NAPOLEON FOR EVERY GARDEN, EVERY BUDGET — OR BE A PRO

Napoleon freestanding is a full range: the same Napoleon quality, the same fifty years of experience and the same strong warranties, from the grill a caterer or a restaurant owner would choose to a first barbecue on the balcony. Whatever the size of the terrace or the budget, there is a Napoleon for it — and from the Rogue SE upwards, it comes with the SIZZLE ZONE infrared burner that sets Napoleon apart.

Shown: Prestige PRO 825

Prestige PRO

The best of the best, for the serious cook and the professional

22,945 AED to 47,585 AED

14,728 AED to 15,333 AED

Shown: PHANTOM Rogue SE 425

Rogue

A full Napoleon on its cart; SIZZLE ZONE on the SE and XT

4,080 AED to 11,199 AED

Shown: PHANTOM Freestyle 425

Freestyle

Simple and solid, ready to cook on day one

4,025 AED to 7,227 AED

Napoleon quality

Stainless steel burners, WAVE cooking grids and JETFIRE ignition across the gas range, built by one of the largest grill makers in the world.

Fifty years of experience

A family company since 1976, inventing rather than following: the infrared SIZZLE ZONE, the WAVE grid, SafetyGlow controls.

Warranties that hold

Ten years bumper to bumper on the Freestyle, fifteen on the Rogue, lifetime on the Prestige PRO and Prestige.

Prices in AED including VAT, from the lowest- to the highest-priced model of each range in stock.

HOW INFRARED COOKING WORKS

Infrared works like the sun: invisible, low-frequency waves carry radiant energy from the burner straight to the food, without heating the air around it. Napoleon's infrared burners are ceramic tiles with thousands of small flame ports that reach around 980 °C in seconds. That intense heat — the SIZZLE ZONE — sears the outside at once and keeps the moisture and flavour inside.

Flavour and juiciness

Radiant energy goes into the food, not the air, so it cooks fast and keeps more of its weight and moisture.

Ready in 30 seconds

No long preheating: the ceramic tile glows and is ready to sear in about 30 seconds. Because it heats the food, not the air, grilling all year round is easier.

The environmental choice

Because the heat goes straight to the food, infrared cooking can use up to half the gas of traditional grilling, according to Napoleon.

The perfect infrared steak

1. Bring the steak to room temperature, pat it dry and season it well with salt and pepper.
2. Preheat the infrared burner for about one minute.
3. Place the steak on the preheated grid.
4. Sear 1–2 minutes, turn it 90 degrees and sear another 1–2 minutes.
5. Take it off and let it rest for rare to medium-rare, or finish it over indirect heat on the main grill to the doneness you like.

Tip: choose a well-marbled steak — the more marbling inside, the more flavour and tenderness. The perfect size is 4 to 5 cm thick and 350 to 450 g.

Made for the SIZZLE ZONE: the wind shield and skewer rack. It keeps the infrared flame steady in the wind and holds four stainless skewers over the heat — 71301 large for the Rogue SE, Prestige PRO and Prestige, 71302 small for the Rogue XT and Rogue SE.

THE HYBRID GRILL: FIVE ACCESSORIES, ONE GAS GRILL

A hybrid grill needs five accessories. With them, one Napoleon gas grill cooks with charcoal, smokes, grills skewers over the SIZZLE ZONE, becomes a flat-top griddle and bakes pizza. Each one goes in and comes back out in a minute.

1 Charcoal and smoker tray

A Napoleon exclusive: the flavour of charcoal with the convenience of gas. The burners light it, no lighter fluid.

1. Take out the grids; replace the sear plates with the tray.
2. Fill it with charcoal and light it with the burners.
3. Put the grids back and grill over charcoal.

Fits Prestige PRO, Prestige, Rogue, Freestyle

67732

330
AED

2 Stainless steel smoker box

Real wood smoke for ribs, chicken, fish and cheese.

1. Fill with wood chips; set over one burner on high.
2. Food over the burners that are off, lid closed.
3. Low and slow; top up the chips.

Fits Any Napoleon gas grill

67013

187
AED

3 SIZZLE ZONE wind shield and skewer rack

Kebabs seared at around 980 °C, and a steady infrared flame in the wind.

1. Set it over the SIZZLE ZONE side burner.
2. Up to four stainless skewers across the racks.
3. Fold the racks down to use pans.

Fits 71301: Rogue SE, Prestige, Prestige PRO
· 71302: Rogue XT, Rogue SE

71301

345
AED

71302

297
AED

4 Stainless steel griddle

Turns the grill into a 66 × 40 cm griddle: sear, sauté and stir-fry — steaks, burgers, full breakfasts. Grease traps catch the drippings.

1. Take out the cooking grids.
2. Lay the griddle in their place.
3. One side hot to sear, the other lower to hold.

Fits Prestige PRO, Prestige, Rogue 525 and 625

56094

1,762
AED

5 Pizza add-on oven

A pizza oven on the grill, stainless steel, with its own temperature gauge.

1. Set it on the grill over the burners.
2. Heat it up; read the gauge.
3. Slide in the pizza and bake.

Fits Napoleon gas grills

71200

577
AED

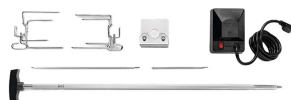

Five accessories, one grill, every way of cooking. Prices in AED including VAT. The rotisserie follows on the next page.

THE ROTISSERIE: SLOW-ROASTED ON THE SPIT

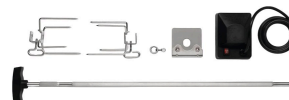

A chicken, a leg of lamb or a rolled roast turning in front of the infrared rear burner, basting itself. Included with the Prestige PRO and Prestige; a kit for the Rogue and the Freestyle.

1. Fit the motor to the side of the grill.
2. Spear the meat on the spit rod and lock it with the forks.
3. Light the infrared rear burner and close the lid.
4. Add the kebab wheel or the grill basket for kebabs, vegetables and wings.

PRESTIGE PRO® AND PRESTIGE® SERIES GRILLS
ELEVATE YOUR GRILLING GAME. UPGRADE TO A NAPOLEON.

PRESTIGE PRO AND PRESTIGE: NAPOLEON'S FINEST

Napoleon's top freestanding range, made in Canada, built around infrared cooking: a SIZZLE ZONE burner for the sear and an infrared rear burner for the rotisserie. Everything below is on both, with a lifetime limited warranty. The difference between the Prestige and the Prestige PRO is set out on the next page.

SafetyGlow control knobs

Backlit in blue, they turn red when the gas is on — easier and safer after dark.

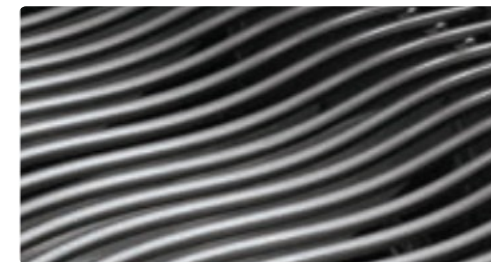

SIZZLE ZONE infrared

Heats to around 980 °C for a restaurant-quality sear.

Infrared rear burner, rotisserie kit included

Two forks on the Prestige, a commercial-quality four-fork kit on the PRO.

Stainless WAVE grids

8.5 mm on the Prestige, 9.5 mm on the PRO: heat retention, even cooking and perfect sear marks.

JETFIRE 2.0 ignition

One-spark ignition, quick and reliable every time.

Patented stainless burner tubes

Even heat across the grill, efficient on gas, and a simple one-spark light-up.

Staggered sear plates

Move the heat efficiently, reduce flare-ups and vaporise drippings for flavour.

Built to move

Full-metal locking casters on the Prestige; large wheels and ULTRA-GLIDE cylinder tray on the PRO.

Also standard: porcelain-coated drip pan that resists salt, grease management system, stow-away warming rack, reinforced doors, prep shelf with bottle opener and hidden tool hooks, LIFT EASE lid.

GRILL DIFFERENT.
GO ROGUE.

ROGUE SERIES

ROGUE

A FULL NAPOLEON ON ITS OWN CART

The Rogue is the everyday Napoleon: a full-size grill on a cart with side shelves, from the compact 365 for a balcony to the 625 for a family and guests. It comes in three levels: the SE with an infrared side burner and an infrared rear burner, the XT with an infrared side burner, and the Rogue with its main burners. The SE 425 also comes as the PHANTOM Rogue SE: the same grill in deep matte black.

What every Rogue has

- Stainless steel tube burners with cross-over lighting
- WAVE-shaped cooking grids and dual-level stainless sear plates
- JETFIRE ignition on every burner
- ACCU-PROBE temperature gauge in the lid
- Folding side shelves and a cart with a closed cabinet
- Fifteen-year bumper-to-bumper parts warranty

Grids and side burner, model by model

- **PHANTOM Rogue SE 425:** stainless steel WAVE grids · infrared SIZZLE ZONE side burner · infrared rear burner · deep matte black
- **Rogue SE 625, 525, 425:** stainless steel WAVE grids · infrared SIZZLE ZONE side burner · infrared rear burner
- **Rogue XT 625, stainless:** stainless steel WAVE grids · infrared SIZZLE ZONE side burner
- **Rogue 525 SB and 365 SB:** porcelain-enamelled cast iron WAVE grids · range side burner, a gas ring for a pan or a pot
- **Rogue 365:** porcelain-enamelled cast iron WAVE grids

WHAT EVERY ROGUE HAS, WHAT THE XT ADDS, WHAT THE SE ADDS

Each level builds on the one before, all with a 15-year bumper-to-bumper parts warranty.

Every Rogue

Cross-over lighting

Each burner lights from the next, and relights if the wind blows it out.

Cast iron WAVE grids

Reversible: a sear on one side, channels that keep the juices on the other.

Dual-level sear plates

Even heat, and the burners protected underneath.

Cast aluminium firebox

Rust-resistant, backed by the 15-year warranty.

ACCU-PROBE gauge

Reads the temperature with the lid closed, with smoke and sear ranges.

JETFIRE ignition

A jet of flame lights each burner for quick start-ups.

Folding side shelves

Fold down to tuck the grill away when it is not in use.

Enclosed cart

Hides the gas cylinder and protects it from the weather.

The XT adds

SIZZLE ZONE side burner

Infrared to around 980 °C for a caramelised steakhouse crust.

Stainless WAVE grids

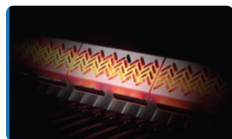

Stainless steel instead of cast iron, on the stainless XT.

Dual-door cart

Two doors and more storage.

The SE adds, on top of the XT

Infrared rear burner

For searing and slow spit roasting on the rotisserie.

Back-lit control knobs

Never left in the dark when grilling late.

Large shelves, bottle opener

More prep space, with an integrated bottle opener.

KEEPING IT WORKING IN THIS CLIMATE

Dust, salt and humidity are what wear a grill here, not cooking. The cover, the brush and a routine are what keep the warranty alive.

The routine

- **After every use.** Gas off at the cylinder, let the unit cool, fit the cover.
- **Every four to five uses.** Slide out the drip pan, scrape it, replace the disposable grease tray. Accumulated grease is what catches fire.
- **Every three to four weeks.** Wash the stainless with warm soapy water — chlorides and sulfides stain steel here, and the marks come off if they are not left.
- **Annually.** Burner ports, venturi tubes, insect screens and ignition checked and cleaned, then a leak test at the cylinder, regulator and hose.

The essential maintenance kit

Gloves to handle the heat, and the brushes and towels that keep a grill clean.

		
Leather BBQ gloves	Heat-resistant glove	Triple-row brush, brass
209 AED	176 AED	121 AED
		
Triple-row brush, stainless	Grill brush	Grid lifter
121 AED	71 AED	71 AED
		
JETFIRE burner brush kit	PRO grill towel	Microfibre towel
55 AED	104 AED	44 AED

Two things that void a warranty

Leaving it uncovered. Dust, salt and humidity attack the finish and the burner components, and no warranty is given on a unit left uncovered.

Water on a hot infrared ceramic. The tile cracks, and that damage is not covered. Never line a drip pan with foil or sand either — it traps grease where it can ignite.

The cover, the gloves and the cleaning kit. That is all a grill needs to last in this climate. Prices in AED including VAT.

Talk to us about your grill

When a grill is more than equipment, and grilling becomes part of how you entertain.

Every grill in this catalogue is held in stock in the UAE. In the UAE it is delivered and assembled free of charge, and Arabia Grills looks after the warranty, the spare parts and the after-sales service.
